

Hridoy Zaman

BIOTECHNOLOGY • SCIENCE-DRIVEN • INNOVATION-FOCUSED • TECH & AI ENTHUSIAST

Dedicated to bridging laboratory science with real-world biotechnology solutions through innovation, research integrity, and continuous learning, leveraging technology and emerging AI to address practical challenges while developing solutions that create meaningful real-world impact.

★ PROFESSIONAL PROFILE

Final semester, soon to graduate B.Sc. in. Biotechnology from BRAC University.

Completed hands-on internship at National Institute of Cancer Research and Hospital (NICRH) in the department of Immunology & Molecular Biology.

Experience in personalized, student-centered teaching and project managements

Advanced Computer Literacy, Technical Proficiency, Digital Fluency

🎓 EDUCATION

B.Sc. in Biotechnology

BRAC University | 2026

Final year research: Dengue epidemiology, challenges & mitigation strategies in South Asia. Interned at NICRH (Immunology & Molecular Biology).

HSC - Science

Dhaka Megacity College | 2018

Science group with Biology major and Higher Mathematics as additional subject.

SSC - Science

Laboratory English version school & College | 2016

Science group with Biology major and Higher Mathematics as additional subject.

▶ EXPERIENCE

Intern — Immunology & Molecular Biology

National Institute of Cancer Research and Hospital (NICRH)

Mohakhali, Dhaka | Feb 2025 – May 2025

- Assisted in ongoing lab diagnostics and molecular diagnostics sample analysis
- Performed DNA/RNA extraction, PCR amplification, and gel electrophoresis
- Maintained detailed laboratory records and clinical trial data compilation
- Hands-on experience in cancer cell biology, immunohistochemistry staining
- Collaborated with pathologists, oncologists, and research fellows
- Learned SOPs for biosafety, specimen handling, and quality assurance

Teaching, Mentorship & E-Learning

Private Academic Institutions

Dhaka, Bangladesh | 2021 – Present

- Delivered English-version science curricula and gamified e-learning content
- Mentored students in academic projects and organized science fairs
- Commended for teaching dedication and compelling educational materials

◆ EXTRACURRICULAR

Tech & AI Innovation

Experienced freelance developer building websites and applications. Currently developing an AI-driven biotech application to streamline biomedical processes.

Competitions & Achievements

Top distinctions in Physics & Mathematics Olympiads. 100+ prizes in arts, crafts, and creative competitions. Highest marks nationwide in Dhruboparishad Bangladesh (7th year).

Leadership & Volunteering

Organized molecular biology workshops for juniors. Active in community health and blood donation drives.

BIOTECH COMPETENCIES

Molecular Biology & Genetic Engineering 92%
Cell Culture & Microscopy 88%
Biochemistry & Analytical Techniques 85%
PCR, Gel Electrophoresis & Blotting 90%
Bioinformatics & Data Analysis 88%
Laboratory Safety & Quality Control 95%

♥ SOFT SKILLS & ATTRIBUTES

English Fluency (Written & Spoken)
Presentation & Public Speaking
Creative Problem Solving
Teaching & Knowledge Transfer
Fast & Eager Learner
Advanced Computer Literacy
Technical Proficiency, Digital Fluency
Graphic, UI & Multimedia Design
Digital Content Creation

LANGUAGES

English — *Fluent (C1/C2)*
Bengali — *Native*

COMPUTER & IT SKILLS

◆ Web Development

Experienced in client-based website development with deployed projects addressing real-world problems; currently working on a passion-driven biotech project.

◆ AI Integration & Utilization

AI enthusiast dedicated to staying updated with emerging AI models; highly skilled at learning, adapting, and implementing AI tools to maximize efficiency.

◆ Remote Work & Collaboration

Proficient with Zoom, Teams, Google Workspace, Notion, and GitHub for distributed teamwork.

◆ Problem Solving & Automation

Custom solutions for data processing and reporting using custom AI agents.

◆ Graphic, UI & Multimedia Design

Designs UI elements, presentations, and digital assets; creates engaging scientific, educational and animated videos with AI-assisted visual content.

◆ Technical Proficiency, Digital Fluency
